## Version 5.1 Bug Fixes

### What's Fixed

<b>Build</b>	<b>ID</b>	<b>Description</b>
5.1.5	QS-2312	Anonymous connection of LDAP cannot connect
5.1.4	QS-2310	Running CLI runTestSuiteByName or runTestSuiteById many times concurrently causes a deadlock exception
5.1.3	QS-2309	Cannot exit "Edit User" window without editing
5.1.3	QS-2308	"Add" button in Users tab of Administration panel does not work
5.1.0	QS-2035	The Command Line (CLI) API getScenarioOutcome returns passing when a Scenario contains errors
